Dear Ms. Whittington,

I am writing to let you & the EPA know that I support the cap & monitor of the Love Landfill in Bucks County.

It's my understanding that you & the EPA agree with Engineering-Science that the landfill causes no risk at this time. So why do want to make things worst by digging in the site & disturbing it?

I think the Engineering-Science proposal of capping & monitoring would by far be the best & right thing to do.

I hope you will take in consideration the opinions & wants of the people in this area who's lives & future will be effected by whatever your decision is.

Sincerely,

Richard D. Muth
